Roadside Intervention Effectiveness Model*

Measures the effectiveness of roadside inspections and traffic enforcements.

*These results have been updated to reflect refinements to the Intervention Model, and hence do not necessarily correspond with results published in archived reports. A description of the model refinements can be found in Appendix A of the report FMCSA Safety Program Effectiveness Measurement: Intervention Model Fiscal Year 2009.

**FY 2012 interventions breakout and safety results were slightly revised per the RIEM FY 2013 Summary Report, incorporating updates to the FMCSA Traffic Enforcement Program's violations list.
