

## Hazardous Materials (HM) - Overview

The Federal Motor Carrier Safety Administration's (FMCSA) primary mission is to reduce crashes, injuries and fatalities involving large trucks and buses. Additionally, FMCSA seeks to reduce HM security risks that could potentially harm the public and environment.

The FMCSA Hazardous Materials Program develops programs to accomplish these goals.

For information regarding FMCSA's HM goals, regulations, permits, training, or security, please visit FMCSA's HM site at: <http://www.fmcsa.dot.gov/safety-security/hazmat/hm-theme.htm>

### Summary of HM Activity in Maryland

| HM Activity by Type (Maryland) | FY 2021 |          |
|--------------------------------|---------|----------|
|                                | Total   | OOS Rate |
| Reviews                        |         |          |
| Total Reviews                  | 1       | n/a      |
| Total Security Contact Reviews | 0       | n/a      |
| Total Terminal Investigations  | 3       | n/a      |
| Roadside Inspections           |         |          |
| Driver Inspections*            | 4,072   | 1.52%    |
| Vehicle Inspections**          | 4,072   | 9.85%    |
| Hazmat Inspections***          | 4,072   | 2.68%    |

\* Driver Inspections were computed based on inspection levels I, II, III, and VI.

\*\* Vehicle Inspections were computed based on inspection levels I, II, V, and VI.

\*\*\* HazMat Inspections were computed based on inspection levels I, II, III, IV, V, and VI, when HM is present.
