Work Plan

This section describes the various tasks and program activities the Applicant proposes to carry out using grant funds to accomplish the objectives and mitigate issues identified in the problem statement. The Work Plan must include a description of the site(s) where the work will be performed, the duration of each proposed task or activity, a list of required goods or services, the number of personnel necessary to conduct the activities, and the entire time schedule for the effort. The level of detail should be concise and sufficient to support the project goal and justify the funding requested in the budget.

Activity 1 – Recruiting Qualified Students:

Describe your proposed activities for recruiting Qualified Students for enrollment into your training program and note whether your published tuition includes student recruitment. (Does the institution already have recruiting personnel? How many students will be recruited including?)

Project Narrative

Activity 2 – Training Qualified Students:

Describe your proposed activities to provide superior, safety-focused CMV training for Qualified Students. Focus on the specific components of your training program. Include any details about the program that make it unique and a synopsis of the performance of the program in previous years. Include the amount of classroom, driving range, and on-the-road training included in your curriculum. Please include any endorsements the Qualified Students will qualify for after completing their CDL training. Are the endorsements included in the tuition base being requested? Are your costs broken out to show the costs by endorsement?

Describe your calculations for the projected number of students who will graduate by successfully completing course curriculum. Do you allow students who are having difficulties mastering a skill to take longer than the prescribed course curriculum? If so, describe that process and the average number of students who take that opportunity in order to pass/graduate from the course. Do most students complete the course within the time allotted? For those that don't, describe the steps taken. Do students end up graduating at a later time or retaking the course? Describe the process of tracking students who complete training and pass all required State driver licensing agency (SDLA) testing requirements and who obtain a CDL. Include the projected number of students who will obtain their CDL, and if known, how many times they will have to take the skills test in order to pass the test and obtain the CDL.

Program Evaluation and Monitoring Plan:

Evaluation or Monitoring Plan: This section explains how the Applicant will monitor program strategies to ensure they are being implemented as designed and are achieving desired results. Applicants should use the same program performance objectives established earlier in the application and describe how they plan to measure the effectiveness of each activity and strategy, such as using incremental benchmarks for a multi-phased strategy to determine whether targets/milestones were met. Applicants should also identify process evaluation measures that describe how their organization will remain focused on implementing a quality program on time and within budget. Providing a timeline to indicate that all class, driving range, and placement services that are being sought for reimbursement will be concluded prior to the end of the period of performance.
