**Federal Motor Carrier Safety Administration**

FMCSA Data Quality Improvement Program

---

# How to Improve Accuracy

March 4, 2021

## U.S. DOT Volpe Center

- Kevin Berry, Program Analyst

## State Partners

- Dana Schweitzer, North Dakota Administrative Assistant for Motor Carrier Operations

# How Does Accuracy Impact Safety?

# Learning Objectives

- Explore how you can improve safety by matching records to a carrier registered with FMCSA
- Identify which tools improve the accuracy of your data

# Agenda

Throughout the session we will:

- Discuss the importance of data accuracy
- Explore carrier types and carrier search
- Examine the role of census numbers and need for daily census updates
- Identify resources to improve inspection record accuracy

# Why Is Accuracy Important?

- Ensures that motor carriers are rated appropriately for safety
- Crashes, as well as inspections with violations, can alert FMCSA to carriers that may need intervention for unsafe driving practices
- Clean inspections can help a motor carrier's safety profile
- Keeps the State's database clean and their SSDQ measures in good standing

# SSDQ Inspection & Crash Accuracy Measures

- Both Accuracy measures are a calculation of the records that match to a carrier in the Motor Carrier Management Information System (MCMIS)
- **Evaluation Period:** 12 months of data with a 3-month lag
  - For February 2021 results, records uploaded from December 2019 through November 2020 are included
- **Records Used:** Records for large trucks and buses registered as interstate or intrastate carrying hazardous materials (HM)
- **Rating Ranges:**
  - GOOD:** 95% or higher
  - FAIR:** 85% – 94%
  - POOR:** 84% or lower (not rated if there are less than 15 records evaluated)

# SSDQ Inspection & Crash Accuracy Measures

- Accurate records allow FMCSA safety systems to assess a carrier's safety record
- To be most successful, FMCSA safety programs need your help ensuring data are accurate and complete!

# Know the Carrier Types: Inspections

Interstate

Intrastate

# Know the Carrier Types: Crashes

## Interstate

## Intrastate

## Not in Commerce – Other Trucks

- Personal rental vehicles over 10,000 lbs. operated by a private individual

## Not in Commerce – Government

- Any vehicle over 10,000 lbs. operated by local, State, or Federal government that does not have a U.S. DOT Number

## Other Operation / Not Specified

- Used when no carrier information is provided and the State is unable to obtain carrier information from other sources
- Example: Hit and Run

# Interstate

- Not defined by the trip's origin and destination
- Must be registered with FMCSA as an Interstate carrier
- Goes through carrier search – the results affect the SSDQ measure
- What do they look like in SAFETYNET?

The screenshot shows the 'INSPECTION [Editing]' window with the following data:

Field	Value
Report Number	TX0000475035
Carrier Name	LAKE CITY TRUCKING
Carrier Identification	
USDOT Number	00319385
MC/MX Number	211234
State Census Number	
Carrier Name	LAKE CITY TRUCKING
Street Address	5700 BJ CEMENT ROAD
Colonia	
City	LAKE CHARLES
State	LA
Zip Code	70615
Registered as Interstate	<input checked="" type="checkbox"/>
Country of Domicile	UNITED STATES
Telephone Number	
Fax Number	

Buttons at the bottom: Other Record, Report..., Verified, OK, Cancel, Help. Page 2 of 7.

The screenshot shows the 'CRASH DATA [Editing]' window with the following data:

Field	Value
Report/Location	TX0012145488
Carrier Name	ANGELIC LUXURY COACH INC
Carrier Identification	
Carrier Type	INTERSTATE
USDOT Number	00996873
State Census Number	
Issuing State	
MC/MX Number	421311
Carrier Name	ANGELIC LUXURY COACH INC
Street Address	8739 D'ARCY RD
Colonia	
City Name	FORESTVILLE
State	MD
Zip Code	20747

Buttons at the bottom: Other Record, Report..., Verified, Save, Cancel, Help. Required Field Page 2 of 6.

# Intrastate

- Operates entirely within their own State
- Might or might not be registered with FMCSA as an Intrastate carrier
- Intrastate HM search results affect the SSDQ measure
- What do they look like in SAFETYNET?

The screenshot shows the 'INSPECTION [Editing]' window. The 'Carrier Identification' section contains the following fields:

- Report Number: TXLADH000483
- Carrier Name: DELTA PRODUCE
- USDOT Number: [Empty]
- MC/MX Number: [Empty]
- State Census Number: 50000000012
- Carrier Name: DELTA PRODUCE
- Street Address: 2001 S LAREDO ST
- Colonia: [Empty]
- City: SAN ANTONIO
- State: TX
- Zip Code: 78207
- Registered as Interstate: [Unchecked]
- Telephone Number: [Empty]
- Fax Number: [Empty]
- Country of Domicile: UNITED STATES

Buttons at the bottom include 'Other Record', 'Report...', 'Verified', 'OK', 'Cancel', and 'Help'. The status bar shows 'Optional Field' and 'Page 2 of 7'.

The screenshot shows the 'CRASH DATA [Editing]' window. The 'Carrier Identification' section contains the following fields:

- Report/Location: TX0012134079
- Carrier Name: B F I WASTE SERVICES OF TEXAS LP
- Carrier Type: Intrastate
- USDOT Number: 00548788
- State Census Number: [Empty]
- Issuing State: [Empty]
- MC/MX Number: [Empty]
- Carrier Name: B F I WASTE SERVICES OF TEXAS LP
- Street Address: 400 PROBANDT ST
- Colonia: [Empty]
- City Name: SAN ANTONIO
- State: TX
- Zip Code: 78204

Buttons at the bottom include 'Other Record', 'Report...', 'Verified', 'Save', 'Cancel', and 'Help'. The status bar shows 'Optional Field' and 'Page 2 of 6'.

# Not in Commerce – Other Trucks

- Rental vehicles (U-Haul, Penske, etc.) over 10,000 lbs. for personal use
- Does not go through carrier search
- Will affect the SSDQ measure if labeled incorrectly
- Three cases when a rental vehicle is involved

CRASH DATA [ Editing ]

# Not in Commerce – Government

- Used for any government vehicle over 10,000 lbs. without a DOT Number
- Does not go through carrier search
- Will affect the SSDQ measure if labeled incorrectly

The screenshot shows a software window titled "CRASH DATA [ Editing ]" with a tabbed interface. The active tab is "Carrier". The "Report Number" is TX0012049824 and the "Carrier Name" is LOUDON COUNTY TRANSIT. The "Carrier Identification" section includes a "Carrier Type" dropdown menu set to "Not in Commerce - Government". Other fields include "USDOT Number", "State Census Number", and "Issuing State" (dropdown). The "MC/MX Number" field has a "Search..." button and a "Copy Search Data" button. The "Responsible Party" is LOUDON COUNTY TRANSIT, "Street Address" is 42000 LOUDON CENTER PLACE, "City Name" is LEESBURG, "State" is VA, and "Zip Code" is 20175. The bottom of the window features navigation arrows, buttons for "Other Record", "Report...", "Verified" (checked), "Save", "Cancel", and "Help", and a status bar indicating "Optional Field Page 2 of 6".

# Other Operation – Not Specified

- Used for vehicles over 10,000 lbs. and only in situations where no carrier information is obtained
- Does not go through carrier search
- Will affect the SSDQ measure if labeled incorrectly

# How to Identify Not-in-Commerce Carriers

- Potential government entities might include:
  - State
  - Department
  - School
  - Transit, etc.
- Other trucks (leasing companies)
  - U-HAUL
  - Penske, etc.
- If the carrier name is the same as the driver, this could be a private individual

# What May Happen...

# Ensuring the Correct Carrier Type Is Chosen

- Keep up with the census updates
- Use carrier search
- Understand the matching results
- State census numbers
- Use the SSDQ non-match reports

# Census Updates

- Process census updates daily to keep SAFETYNET current
- Updates do take some time, so we recommend doing so during lunch or after hours

## Why Is this Important?

- Regular census updates let you work with the most up-to-date carrier information

# Census Updates

Demo: Process a Census Update

# SAFETYNET's Carrier Search Process

- Individual Carrier Search

- Recommended for crash searches to reduce non-matches and identify correct carrier types

**Pros:** Provides opportunity to catch more errors

**Cons:** Can be time consuming and labor intensive

- Batch Carrier Search

- Due to volume, usually recommended for inspection carrier searches

**Pros:** Efficient and quick way to run the process

**Cons:** Missed opportunities to identify errors and make corrections

# Carrier Search Results

- When carrier search is run, we see these results:
  - Matches
    - Only one definite match was found in the carrier census
  - Potential matches
    - More than one potential match was found in the census
  - Non-matches
    - There were no matches found in the census
- Potentials and non-matches are listed in the A&I Non-Match Report

# Individual Carrier Search – Finding a Match

## What to do when SAFETYNET finds a match

Use crash record: IN0014065213

Crash - Main Database 11/20/2020 2:56:56 PM 945 Total records as of 2:55:33 PM 8 Tagged 945 Queried

# Batch Carrier Search Results

## Understanding the search results

The screenshot shows the SAFETYNET application interface. The main window displays a table titled "Crash - Main Database" with columns: Tag, Report #, Crash Date, USDDT #, MC/MX #, Interstate, Carrier Name, and Driver Last Name. The table contains several rows of data, with the first few rows highlighted in blue. An "Information" dialog box is overlaid on the table, displaying the following statistics:

- Number of Definite Matches: 2
- Number of Potential Matches: 3
- Number of Non-Matches: 1

The dialog box also includes an "OK" button. The status bar at the bottom of the application window shows: "Crash - Main Database | 11/20/2020 | 2:58:07 PM | 945 Total records as of 2:55:33 PM | 8 Tagged | 945 Queried".

# State Census Numbers

- Some States are allowed to issue a State-specific number for Intrastate Carriers
  - Only type of carrier you can add to SAFETYNET's local census
- Allows carriers to be monitored by the State
- Follow your State's procedures

# Non-Match Reports

## Reports available on A&I

- Inspection and Crash SDAR Non-Matched Reports

# A&I Non-Match Reports Demo

## Demo Objective:

Become familiar with the SDAR Crash Non-Match Report

- Log into the DQ Website
  - <https://ai.fmcsa.dot.gov/DataQuality/>
- Go to your State's Crash Accuracy Measure Page
- Click on the Non-Match Records link
- Review the report
- Repeat for the Inspection Non-Match Report

# Exercise # 3 - A&I Non-Match Reports Exercise

## Exercise Objective:

Become familiar with the SDAR Crash Non-Match Report

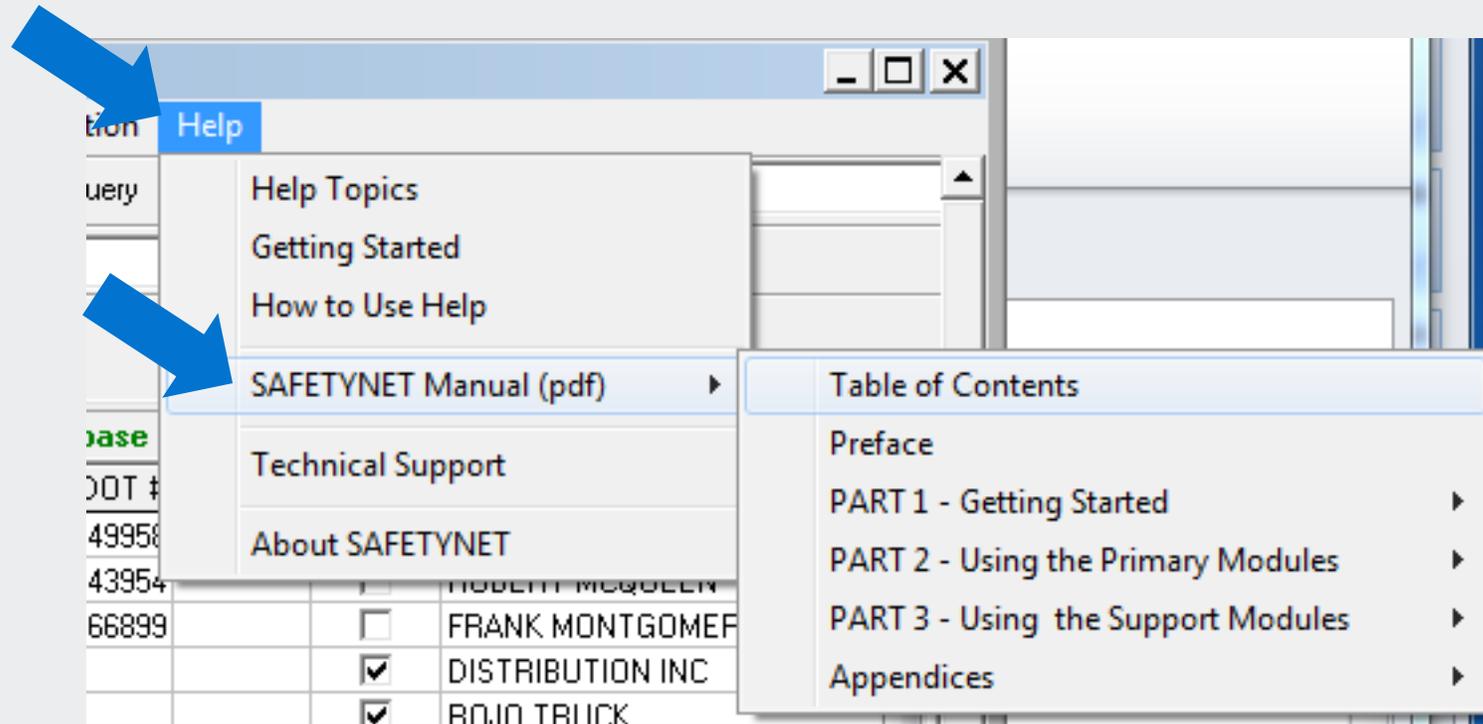

- Find the following:
  - 1) Number of Possible Government Vehicles on your State's SDAR Crash Non-match Report
  - 2) Number of Possible Lease Vehicles on your State's SDAR Crash Non-match Report

# Accuracy Tips

- Do not select DOT# '1' when filling in DOT Numbers
- Do not send records with only MC Number—you must also include the DOT Number
- Whether you are running Batch or Individual searches, you must complete the Census Search!
- Be sure to carry out due diligence for carriers with multiple DOT Numbers

# SAFETYNET Manual

- The SAFETYNET Manual is included in SAFETYNET
- Access the manual by clicking on the Help top menu item

# Have Questions? Let Us know!
