

Crash Reports – Type of Trafficway

The 'Type of Trafficway' report presents statistics for fatal, non-fatal, injury and tow-away crash events for large trucks and buses by the type of trafficway where the crash occurred. FARS contains information on the types of roadway and trafficway where fatal crashes occur. MCMIS contains data only on the type of trafficway.

Filter Options

Filter	Description
Data Source	<p>The Crash Statistics module provides users an ability to view crash data reports either from MCMIS or FARS.</p> <ol style="list-style-type: none"> 1) MCMIS includes crashes involving trucks and buses that are reported by states to the FMCSA through the SAFETYNET computer reporting system. It includes data elements collected on trucks and buses that meet the NGA recommended crash threshold. The FMCSA operates and maintains the MCMIS. 2) FARS is a census of crashes involving any motor vehicle on a trafficway, but only includes fatal crashes. FARS is maintained by the National Highway Traffic Safety Administration (NHTSA).
Domicile	<p>By default, the domicile filter is set to "All Domiciles". The following options are available:</p> <ol style="list-style-type: none"> 1) All domiciles includes all carriers domiciled in the United States, Mexico, Canada, and some foreign countries. 2) United States includes carriers domiciled in the United States. 3) Mexico includes carriers domiciled in Mexico. 4) Canada includes carriers domiciled in Canada.
Vehicle Type	<p>By default, the vehicle type filter is set to "Large Trucks & Buses". The following options are available:</p> <ol style="list-style-type: none"> 1) Large Trucks & Buses include all trucks and buses. 2) Large Trucks include all vehicles designed, used, or maintained primarily for carrying property, with a gross vehicle weight rating or gross combination weight rating of more than 10,000 pounds, or any vehicle displaying a hazardous materials placard. 3) Buses are vehicles designed to transport nine or more people, including the driver.
Report Focus	<p>By default, the report focus filter is set to "All States". The following options are available:</p> <ol style="list-style-type: none"> 1) All States includes all States and the U.S. territories. 2) National is a summary of all States data and the U.S. territories.

	3) State includes one State's data.
Time Period	The Calendar or Fiscal year when the crash events occurred.
Crash Type	By default, the filter is set to "All Crashes". 1) All Crashes includes fatal and non-fatal crash involvements. 2) Fatal Crashes include crash events where one or more persons dies within 30 days of the crash. The fatality does not have to occur at the scene of the crash. It includes any person involved in the crash, including pedestrians and bicyclists, as well as occupants of the passenger cars. 3) Injury Crashes include crash events that resulted in at least one injury requiring immediate medical attention away from the crash scene. 4) Towaway Crashes include crash events where at least one vehicle incurred disabling damage as a result of the crash and was towed from the crash scene.
Crash Metric	By default, the filter is set to "Vehicles" 1) Vehicles displays the counts by number of vehicles. 2) Crashes displays the counts by number of crashes. 3) Injuries displays the counts by number of injuries. 4) Fatalities displays the counts by number of fatalities.

Column/Row Descriptions

Column Name	Description
Divided Highway, Median Strip	A divided highway with a median strip
Entrance/Exit Ramp	An entrance or exit ramp to or from a trafficway.
One-Way Trafficway, Not Divided	A highway on which vehicles travel only in one direction.
Two-Way Trafficway, Divided, With Barrier	A highway on which vehicles travel in opposite directions where the opposing travel lanes are separated by a positive barrier, such as a jersey barrier.
Two-Way Trafficway, Divided, Without Barrier	A highway on which vehicles travel in opposite directions where the opposing travel lanes are separated by an area wider than an easily traversable centerline, an unprotected small median.
Two-Way Trafficway, Not Divided	A highway on which vehicles travel in opposite directions but the opposing travel lanes are not physically separated by more than an easily traversable centerline.
Non-Trafficway Area	

Crash Statistics

Missing	No data reported on type of trafficway
Unknown	Not able to determine the type of trafficway
