

## Commercial Zone by Month

This report presents a breakdown of roadside inspection activities which occurred in the Commercial Zone by month for the selected year. The report can be filtered by fiscal or calendar years, carrier domicile, and vehicle type. Clicking on any column heading will sort the report by the selected column. By default, the report displays inspection counts by month for the last 5 calendar years.

A roadside inspection occurs when a Motor Carrier Safety Assistance Program (MCSAP) inspector conducts an examination on individual commercial motor vehicles and drivers to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs.) Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service. Traffic enforcement violations may also be recorded in conjunction with a roadside inspection.
