

Data Quality Carrier Types

The Carrier Type field in SAFETYNET reflects whether a motor carrier is registered with FMCSA for interstate or intrastate commerce. Use this chart as a guide for entering carrier data in SAFETYNET.

Type	Conduct Carrier Search?	Field Used in SSDQ Accuracy Measure?	Field Used in the SMS?	Should Carrier Have USDOT#?	Enter Carrier Data in SAFETYNET	Notes
Interstate					Carrier Name: Legal/DBA name Carrier Address: Physical/mailling address City: Physical/mailling city State: Physical/mailling State Zip Code: Physical/zip code	Improve carrier results by using a USDOT Number. Can use a physical or mailing address.
Intrastate HM					Carrier Name: Legal/DBA name Carrier Address: Physical/mailling address City: Physical/mailling city State: Physical/mailling State Zip Code: Physical/zip code	Set the "HM Placard?" field to yes.
Intrastate Non-HM					Carrier Name: Legal/DBA name Carrier Address: Physical/mailling address City: Physical/mailling city State: Physical/mailling State Zip Code: Physical/zip code	Most Intrastate carriers do not have a USDOT Number. Intrastate carriers are not presented as a match/non-match.
Not in Commerce—Gov't					Carrier Name: Gov't entity Carrier Address: Address City: Entity's city State: Entity's State Zip Code: Entity's zip code	Some government entities have a USDOT Number. See Interstate or Intrastate.
