**How to Access the PRISM DASH Through the FMCSA Portal: Step-by-Step Guide**

The PRISM DASH is an online workspace where State Partners and FMCSA State Division staff can access reports, submit data, and review training materials. State Partners and FMCSA State Division staff require an FMCSA Portal Account to access the PRISM Data and Activity Safety Hub (DASH) website. You must have an FMCSA Portal Account to login to the DASH. Ensure your FMCSA portal account has an active A&I Enforcement user role.

**FMCSA Portal Access Verification**

   - If A&I (SMS) is listed in the Available FMCSA Systems (please see example), you have access to all functions in PRISM DASH.
   - However, if A&I (SMS) is not displayed, follow the steps below to request the A&I Enforcement Users role. This role must be added to your current portal account settings.

2. Select **Account Management** from the toolbar, then select **My Profile**.
3. Next, select the **Available Systems** tab.
4. From the available roles list, select **A&I**, then select **A&I Enforcement Users**.
5. Select **Add Role** to add A&I Enforcement Users to the Pending/Requested Roles field.
6. Lastly, select **Update Profile** to initiate the process.

**Note:** You will receive an automated email from the Portal system once the role has been approved.
